PREPARING THE ASPHALT INDUSTRY FOR THE FUTURE

ANDEL'S HOTEL | BERLIN | GERMANY

SAVE THE DATE

www.eeevent2018.org

An exciting new platform offering the opportunity for extensive interaction across a wide scope of industry stakeholders to better understand how we can be best prepared as an industry for the expectations in the longer term.

THEMES

The main objective of this **unique event** will be to focus on the preparations needed by the asphalt industry to ensure it is fit for future purpose by exploring important **strategic issues**, some have already been highlighted in the E&E Congress 2016:

1. Visions on the future of the asphalt industry
2. Economic aspects
3. Communication, education and training – Becoming an attractive industry
4. Future Environmental aspects including future Health & Safety items
5. New technologies including equipment and information technology
